This Agreement for Landscape Maintenance Services ("**Agreement**"), effective the 1st day of January 2024 ("**Effective Date**") is entered into by and between Roxborough Village Metropolitan District, a political subdivision of the State of Colorado ("**District**"), and Consolidated Divisions, Inc., a Colorado corporation d/b/a CDI Environmental Contractor ("**CDI**"). The District and CDI are referred to collectively as the "**Parties**" or individually as a "**Party**".

ARTICLE I SERVICES AND COMPENSATION

Section 1.1 Services and Compensation:

(a) Services: The District retains CDI to perform, and CDI agrees to perform, maintenance, care and repair of certain landscaped areas described in the Scope of Services as the Standard Services attached as Attachment 1, including Exhibits A, B and C to Attachment 1, which are incorporated by reference and made a part of this Agreement (collectively, the "**Services**"). The additional services set forth in Exhibit B, and such additional services that are beyond those set out in Attachment 1 (collectively, "**Additional Services**"), if requested, shall be provided only when authorized in writing by the District. To the extent any provision of this Agreement and Attachment 1 conflict, directly or indirectly, the provisions of this Agreement shall prevail.

(b) Attendance at Board Meetings and Reports to District Manager: CDI shall attend the regular meetings of the District's Board of Directors ("**Board**"). CDI shall submit a summary report of all activities for the prior month and anticipated activities for the coming month to the District Manager in a format determined by the Board. The summary report, and any proposed agenda items that CDI deems appropriate or necessary for inclusion for an upcoming Board meeting, shall be submitted to the District Manager in sufficient time to be included in the monthly Board packet prepared by the District Manager.

(c) Quality Assurance: CDI shall provide a schedule of all maintenance related activities planned during the Services period, with notations of season requirements. CDI shall submit with the maintenance schedule all product data for materials, such as fertilizers, pesticides, etc. In order to expedite minor but necessary work and repairs that are not a part of the base contract, CDI may be authorized to spend up to \$3,000 per incident without prior authorization, unless otherwise directed in writing. All larger repairs or maintenance items shall be brought to the attention of the District Manager for review and may require Board approval.

(d) Commencement Date: CDI shall commence performance of the Services on the Effective Date and will thereafter continually and diligently perform the Services and the Additional Services requested by the District until this Agreement is terminated or expires, whichever occurs first.

(e) Communication: CDI will notify the District prior to performing each Service listed in Exhibit B with a scheduled date the Service will be performed, along with any pertinent

information related to such Service. A checklist of the Services listed in Exhibit B shall be provided in CDI's monthly report showing what Services have been completed and what Services have yet to be rendered.

Section 1.2 Compensation: In consideration of CDI's satisfactory performance and completion of the Services, the District shall pay CDI the compensation described in Attachment 2, which is incorporated by reference and made a part of this Agreement. If there is a direct or indirect conflict between the itemization of services and/or times in Attachment 2 and the itemization of services and/or times in Attachment 1 (including Exhibits A, B, and C), Attachment 1 shall control; provided, however, as set forth in Section 1.1(a), above, if the itemization of services and/or times in question in Attachment 1 conflict, directly or indirectly, with any provision in this Agreement, this Agreement shall control.

Section 1.3 Payment:

(a) Request for Payment: CDI shall submit to the District Manager, by the second Tuesday of the month, a standard pay request form setting forth the monthly scheduled payment in accordance with Attachment 2, and a report detailing the following ("**Request for Payment**"):

- (i) Services performed during the previous month, including but not limited to:
 - A. Locations;
 - B. Time and rate per hour of each employee or subcontractor (if applicable);
 - C. Quantities of materials used in the work performed (if applicable);
 - D. Reason for work performance;
 - E. Detail of problems encountered and corrective action taken or proposed to be taken;
 - F. Work Orders recommended to be performed in the future and the reason the work is recommended; and,
 - G. Services performed during the previous month pursuant to an approved Work Order with supporting documentation.

- (ii) Maintenance inspection report discussing (but not limited to) the following:
 - A. Safety conditions;
 - B. Appearance; and,
 - C. Follow up items for the preceding month.

Any failure to timely provide the foregoing Request for Payment, with all of the required information, may delay payment up to the next monthly Board meeting and may constitute a breach of this Agreement.

(b) Payment Procedure: The District will make payment to CDI for work satisfactorily completed within thirty (30) days after a Request for Payment is submitted by CDI. Late fees, penalties, and interest will not be charged against any disputed amount the District does not pay by the date owed. CDI has the right to stop work, and shall notify the District of such action, if the District does not pay any undisputed portion, or all, of a Request for Payment in full within thirty (30) days of the District receiving the Request for Payment. If CDI stops work, it shall have no obligation to maintain, care for, or provide any Services to the landscape maintenance areas.

(c) Chatfield Farms: All Requests for Payment shall separately identify the cost of any Services performed within the Chatfield Farms areas shown on Attachment 1. Failure to provide separate costs for Chatfield Farms will constitute a deficient Request for Payment described under the above Payment Procedure section and will delay payments and may constitute a breach of this Agreement.

(d) Additional Services: If CDI is directed to perform any Additional Services, CDI shall submit invoices for all Additional Services to the District Manager within thirty (30) days of performing the work.

(e) Tax Exempt Status: The District is exempt from Colorado state and local sales and use taxes. CDI's invoices shall not include any sums for such taxes.

(f) Penalty for Failure to Complete Tasks/Projects or Provide Required Information by Deadlines Established in this Agreement: If CDI fails to complete a task/project or provide required information by the deadline(s) established in this Agreement, the District shall have the right to deduct \$100.00 from any amounts owed to CDI. Each failure to complete a task/project or provide required information is a separate infraction that will result in a \$100.00 deduction. The District may, in its discretion, waive an infraction if CDI provides documents and/or other information substantiation that there were extenuating circumstances that would justify such a waiver.

Section 1.4 Set-Off: In addition to any other rights the District has under this Agreement or in law or equity for indemnity or other reimbursement, recoupment, or payment by CDI, CDI agrees that the District is entitled to set-off any amounts it may owe CDI under this Agreement against such claims for indemnity or other reimbursement, recoupment, or payment.

Section 1.5 Non-Appropriation: The District's direct and indirect financial obligations under this Agreement are subject to annual appropriation by the Board. If the Board does not appropriate funds beyond the current calendar year, this Agreement shall automatically terminate with no further obligation whatsoever to CDI.

ARTICLE II TERM AND TERMINATION

Section 2.1 Term: The term of this Agreement shall begin on the Effective Date and shall continue through December 31, 2024 ("**Term**"). This Agreement may be terminated in accordance with Section 2.2, below, or as elsewhere provided in this Agreement.

Section 2.2 Termination:

(a) Termination by CDI: CDI may terminate this Agreement: (i) if the District fails to pay an undisputed amount owed within fifteen (15) workdays of receiving CDI's written notice that the undisputed amount has not been paid; or, (ii) upon thirty (30) workdays prior written notice to the

District for any other reason.

(b) Termination by the District: The District may terminate this Agreement: (i) upon fifteen (15) workdays written notice to CDI that it has breached this Agreement, if CDI fails to cure, or take substantial steps to cure, such breach within the fifteen (15) day period; or, (ii) upon thirty (30) workdays prior written notice to CDI for any other reason.

(c) Effect of Termination: In the event of termination, the District will pay CDI for the prorated portion of the Services satisfactorily performed to the date of termination, subject to the District's right of set-off pursuant to Section 1.4 above and the District's right of non-appropriation pursuant to Section 1.5 above.

ARTICLE III GENERAL SERVICES PROVISIONS

Section 3.1 Professional Standards: CDI will perform the Services and any authorized Additional Services in accordance with the generally accepted standards of care, skill, diligence, and professional competence applicable to contractors engaged in providing similar services at the time and place that CDI's Services or Additional Services are rendered. Except as otherwise expressly stated herein, CDI shall, at its cost, be solely responsible for repairing any damage caused by CDI or one or more of the CDI Parties (defined below).

District and/or such property that arise from or are the result of the Services or authorized Additional Services CDI performs. In addition, CDI shall promptly resolve any verified statement of claim filed with the District by a subcontractor, vendor, or supplier claiming CDI has failed to pay amounts due for services, labor or materials provided to CDI in the performance of its Services or authorized Additional Services.

The District shall have the right to select legal counsel to represent it, notwithstanding CDI’s obligation to pay the reasonable attorneys’ fees, costs, and expenses of the District’s legal counsel.

Section 4.2 Communications and Confidentiality: CDI will hold the information supplied by the District in confidence and will not disclose it to any other person or entity, unless (a) the District authorizes it to do so; (b) it is published or released by the District; (c) it becomes publicly known or available other than through disclosure by CDI; or, (d) disclosure is required by Applicable Law. This confidentiality provision does not prohibit CDI from disclosing District information to

ATTACHMENT 1 SCOPE OF SERVICES

CDI shall provide the landscape services set forth in this Scope of Services within the landscaped areas shown on Exhibit A to this Attachment 1. Special landscape services are described in Article III, below. If there is a conflict between the Standard Landscaping Services (Article II) and/or the Special Landscaping Services (Article III) and CDI's General Representations (Article I), the Standard Landscaping Services and/or the Special Landscaping Services, as applicable, shall control.

ARTICLE I CDI's GENERAL REPRESENTATIONS

Maintenance - Quality Plan

Property Name: Roxborough Village Metro District
Focus Area: *Maintenance*

1. Maintenance QUALITY PLAN PURPOSE

Roxborough Village Metro District is classified by CDI as a HIGH PRIORITY site.

Attention to Detail – You expressed your need to have the association look aesthetically pleasing and maintained throughout the season at a high standard. We understand that Roxborough Village is a premier community, and the landscaping needs to reflect that image. Lack of focus in highly visible areas shows an unkempt look and can reflect negatively upon the association. In order to provide thoroughness and quality in all aspects of our service, CDI plans for such detailing of a property that is often overlooked due to lack of proper planning and adequate/trained resources. Our approach will be to have the same crew performing the work week after week throughout the season; providing you familiarity with the crew and ensuring timeliness and consistent quality of work completed. This planning includes utilizing proven tools for mapping out and allocating time and manpower for these activities to be completed as scheduled. Weekly quality assurance programs will ensure the community is maintained consistently. .

2. QUALITY MANAGEMENT METHOD

2.1 Quality Standards

A leading cause of frustrations with landscape maintenance is when a contractor does not provide consistent services in a timely manner. When your time is spent "babysitting" your contractor, you are taken away from other more important responsibilities. In this proposal, we have provided a tailored Landscape Plan for Roxborough Village which outlines the services to be provided and the frequency of when these services are scheduled to be performed. This information provided in the Landscape Plan sets the expectations and allows you to communicate from a position of knowledge when corresponding with the Board and/or when you receive calls from homeowners.

2.2 Quality Equipment

Qualified as a HIGH PRIORITY account, Roxborough Village will be assigned all CDI-owned equipment. As needs change and we become accustomed to the property we can adjust as necessary as well.

2.3 Account Manager Responsibilities

Proactive communication is important and something you expect from your contractor. "Doing what you say, when you say you are going to do it", is simply following through on commitments. It shouldn't be your responsibility to bring issues/concerns to the attention of the landscape maintenance provider. With CDI, you will have multiple sets of eyes, at various times each week, watching over the property to identify and anticipate concerns and potential problems. Your dedicated Account Manager and single point of contact will ensure that you receive focused, proactive, and solution-driven communication pertaining to changing conditions of the campus. Whether it be conducting site walks and/or providing status reports, we will work with you to develop the most appropriate communication method(s) to convey pertinent information on what has/has not/will be transpiring on the property.

ARTICLE II STANDARD LANDSCAPING SERVICES

Section 1 Standard Landscape Services: The frequency and/or number of times per year that CDI is to provide the Standard Landscape Services are set forth in Exhibit B. A map depicting the areas to provide the Standard Landscape Services is shown in Exhibit C (the “*Landscape Maintenance Map*”).

(a) Irrigated Turf: Turf care consists of mowing, irrigation, fertilization, and herbicide application to maintain healthy turf at all times.

(b) Mowing of Irrigated Turf Areas: Irrigated turf areas shall be mowed as necessary to maintain a turf height of approximately $2\frac{3}{4}$ - $3\frac{3}{4}$ inches during the growing season. Mowing equipment and patterns shall be employed to permit recycling of clippings where possible. Excess clippings shall be removed from sidewalks and drives. Blades on all equipment shall be sharp to prevent tearing of the grass blades. Drought conditions may necessitate less frequent mowing. All clippings shall be collected and disposed of properly and/or blown from sidewalks in irrigated turf areas to maintain a well-groomed appearance. Mowing shall not be performed when the ground is soggy to avoid compaction, rutting, and removal of the grass.

(c) Trimming: All irrigated turf areas shall be trimmed after each mowing to provide a well-groomed appearance. This shall include all fence lines and vertical elements.

(d) Edging: During the mowing season, edging shall be performed along all sidewalks, walkways, drainage ways, streets, curbs and planting beds to maintain a well-groomed appearance. Such edging shall be performed at least bi-weekly in irrigated turf areas during the mowing season. Should more frequent edging be required to maintain a well-groomed appearance, CDI shall provide a written proposal for such additional edging to the District Manager. All clippings shall be collected and disposed of properly and/or blown from sidewalks to maintain a well-groomed appearance.

(e) Fertilization: Irrigated turf areas shall be fertilized with a high quality, well-balanced fertilizer three (3) times each season. Only non-phosphorus fertilizer shall be used. The first application shall consist of $\frac{1}{2}$ pound of nitrogen per 1,000 square feet, at least 40% of which shall be slow-release nitrogen. This first application shall contain a pre-emergent herbicide to control annual grassy weeds. Each subsequent application shall be 1 pound of nitrogen per 1,000 square feet, at least 40% of which shall be slow-release nitrogen and shall also contain at least 1% iron. All fertilizer shall be blown into turf areas from sidewalks to minimize staining; fertilizer shall not be blown into streets or gutters. Both the first and third fertilization shall occur as specified under the aeration section with the second occurring at some midpoint between the first and third application.

(f) Integrated Pest Management: If requested, CDI shall assist the District to develop policies to apply the principles of Integrated Pest Management (IPM). This includes information on modifications and additions to the prevention strategy and schedule of regular cleaning and maintenance; regular monitoring to detect problems early; choosing the most effective options with the least risk to people and the environment; using biological methods that will result in long-

term solutions; and minimizing the use of pesticides and insecticides. CDI shall attempt to alert the District of all effective alternatives to chemical applications available.

(g) Weed Control: CDI shall spray all irrigated turf with a broad-spectrum broadleaf herbicide three (3) times per season with follow-up spot application as required. Prior to such application, CDI shall submit the proposed herbicide to the District for approval. Application of pre-emergent herbicide shall be completed before May 1 of each year; second and third applications of pre-emergent or application of post-emergent control of broadleaf weeds shall occur late June to first week of July and again late August to first week of September of each year. CDI shall perform manual removal of weeds on a weekly basis as needed.

(h) Aeration: CDI shall aerate all irrigated turf areas to open the turf for fertilizer, air, and water two (2) times each year. The first aeration shall be completed before the first fertilization and shall be done within one (1) week of the irrigation system being turned on in the spring. The second aeration shall occur at a minimum, two (2) weeks prior to the irrigation system being shut down for the year. Irrigated turf areas will be watered thoroughly prior to aeration and fertilized immediately thereafter with an appropriate fertilizer, as specified in the Fertilization section. CDI shall use only a closed coring tine. Prior to aeration, CDI shall flag all sprinkler heads and valve boxes to minimize damage. At its own expense, CDI shall replace any sprinkler heads and valve box covers damaged by the aerators. Plugs shall be left on irrigated turf areas to assist in breaking down thatch.

(i) Leaf Removal: In irrigated turf areas, CDI will collect and remove large accumulations of leaves during the month of November or after 90% leaf drop. Timing of collection and removal shall be weather dependent.

(j) Unusual Conditions: Whenever CDI observes any condition which CDI believes may be detrimental to healthy turf growth, such conditions shall be immediately reported to the District Manager along with a recommended corrective action.

Section 2 Non-Irrigated Turf and Native Grass Care: All mowing of non-irrigated turf and native grasses shall be coordinated with the District's herbicide contractor.

(a) Trails Through Non-Irrigated Turf and Native Grass Areas: Non-irrigated turf and native grass areas on either side of trails and sidewalks shall be mowed to a width of four feet (4'). These mowing areas are defined as beauty-bands and are depicted in Exhibit C. The beauty-bands shall be mowed to four inches (4") when any of the vegetation in the bands have exceeded seven inches (7"). All clippings shall be collected and disposed of properly and/or blown from trails and sidewalks to maintain a well-groomed appearance.

(b) Fence Lines: All fence lines depicted in Exhibit C shall be mowed to a width of eight feet (8') and trimmed for wildfire mitigation purposes. Fence lines shall be mowed to a height of four inches (4") when the grasses exceed seven inches (7"). If the distance from a fence line to a path or to a road is under twenty feet (20'), the fence line mowing shall be widened to meet the mowed beauty-band to avoid leaving narrow strips of tall grass.

(c) Mowing of Non-Irrigated Turf and Native Grass Areas: Non-irrigated turf and native grass areas, as identified in Exhibit C, shall be mowed once per year, or as necessary at the discretion of the Board. The annual mowing shall occur in late winter or early spring except for (i) the sledding hill which shall be mowed once in late summer or early fall before any snowfall and for (ii) the east side of the upper parking lot, which shall be mowed based on the same criteria and frequency as beauty-bands. Mowing shall not be performed when the ground is soggy to avoid compaction, rutting, and removal of the grass. Only native areas designated in the maintenance plan map shall be mowed; not all native areas throughout the District will be mowed. All clippings shall be collected and disposed of properly and/or blown from sidewalks to maintain a well-groomed appearance.

Section 3 Tree and Shrub Care in Landscaped Areas: CDI shall familiarize themselves with the numbers, locations, and types of trees and shrubs within the District. Tree and shrub care shall maintain and promote healthy growing conditions and shall include pruning, wound repair, fertilization, insect control, disease control, and other maintenance measures as necessary. The maximum overall tree/shrub height for pruning and removal shall be ten feet (10') or $\frac{1}{3}$ the height of the tree/shrub, whichever is less. Trees in native areas are not maintained; however, some trees in non-irrigated, landscaped areas are maintained.

(a) Pruning and/or Removal of Trees: CDI shall not prune or remove trees unless directed to do so by the District. Any such pruning of trees or removal of any trees shall be an Additional Service to be approved by the Board or District Manager.

(b) Pruning Shrubs: The objective of shrub pruning is to promote healthy plants and a pleasing appearance and to remove any growth into sidewalk areas. Shrubs shall be maintained as prescribed by the best practices for the species. Shrubs will be thinned as necessary to retain dense foliage, quality flowers, and a healthy natural appearance. Shrubs in non-irrigated and native areas are not maintained.

(c) Dead Plant Materials and Replacement of Plants: All dead plant materials shall be removed and properly disposed off-site within one (1) week of determination of death. CDI shall immediately provide a quote to the District Manager to replace such plants.

(d) Wrapping: CDI shall not wrap trees or shrubs unless directed to do so by the District. Any such wrapping of trees or shrubs shall be an Additional Service to be approved by the Board or District Manager.

(e) Watering: During periods of dry weather, newly planted trees shall be hand watered weekly when the irrigation system is shut off or where no irrigation exists. This watering shall continue for new trees until they have been in the ground for two years and/or until they have an established root system.

Section 4 Mulch and Mulch Beds: Organic mulches, including wood and bark chips shall be utilized in non-turf flower bed areas.

(a) Protective Rings: All trees and shrub beds shall be protected from maintenance

equipment by use of a mulch bed and/or other protection, as approved by the Board. CDI shall correct any protective rings that are misapplied or in disrepair. Wood mulch shall not be applied against tree bark and shall dip to meet the base of the tree.

(b) Application: Certified weed-free shredded wood mulch shall be reapplied each season after the first herbicide application, if applicable. This shall include all tree protection rings, shrub beds, ground covers, and annual and perennial beds.

(c) Maintenance: All mulched areas shall be edged or re-edged prior to application of mulch to provide natural containment.

Section 5 Ground Cover, Flower Beds and Rock Beds: The appearance and health of ground cover, flower beds, and rock beds shall be maintained by adhering to the following practices:

The contract price includes replacement of one hundred (100) linear feet of metal edging to be replaced monthly. Only deteriorated or irreparable edging shall be replaced. These replacements must be specifically invoiced including date, time expended, and locations serviced for record purposes. If any of the hundred (100) linear feet per month remain unused at the end of the month, CDI will credit the District any remaining linear footage on subsequent work orders submitted for metal edging replacements. The District shall receive the benefit of all one hundred (100) linear feet per month whether or not such benefit is realized within the month of service, within prior months, or within subsequent months, for a total of 1,200 linear feet per year. If all deteriorated and irreparable metal edging has been replaced, CDI shall cease metal edging replacement work and credit the remaining linear footage to the District at the unit price listed in Attachment 2.

Adjustments to the amounts of watering shall be performed as needed throughout the watering season to adjust for precipitation and fluctuations in the evapo-transpiration rate.

(e) Drip Irrigation System: CDI shall walk through all planting beds watered with drip irrigation and check for visible signs of plant stress. If stressed plant material is located, CDI shall inspect for proper system operation and repair as necessary. CDI shall report any non-functional drip irrigation system component and submit recommendations and estimates on necessary repairs along with photos related to the same, for approval by the Board.
